Choose which word your whole group wants. Get into teams and see who can get the highest score!

Try and think of as many words as you can to do with today's story – and fit them into the grid. If your word starts with the letter on the grid you will get a higher score than if your word just has that letter in it, but any words will do so long as they are linked to the story. Each word scores the number that its last letter lands on, with a bonus of 10 for starting with the correct letter.
